

BYCURE

Product name: BOOSTER MASK

Code: **RB102281**

Packaging: 10 sachets of 5 ml

Class: Activating Mask

Function: Revitalizing and emollient mask

With a balanced mix of active ingredients that give an immediate compactness and firmness of the face. The weekly use of the product reduces the signs of aging gradually giving to the face a more youthful appearance.

Active principles and their function:

Cetearyl Isononyl: emollient and lubricating action. It forms a lipid film on the skin which reduces the loss of water from the corneum stratum.

Shea Butter: moisturizing, softening and regenerating properties. It's a precious anti-wrinkle and anti-aging natural ingredient for face and body, able to confer to the skin firmness and elasticity.

Silica: gives the facial skin a silky touch with "matte" appearance.

Cetearyl isononanoate: azione emolliente e lubrificante. E' in grado di formare sulla pelle un film lipidico che riduce la perdita di acqua dallo strato corneo.

Burro di karitè : proprietà idratanti, emollienti e rigeneranti. E' un prezioso ingrediente naturale antirughe e antietà per il viso e il corpo, in grado di conferire alla cute compattezza ed elasticità.

Silica: conferisce alla pelle del viso un tocco setoso con aspetto "matte".

Skin type treated: for all skin types - young, mature, and asphyxiated with evident skin dryness.

How to use: Once a week, after proper cleansing, apply all content of the sachet on your face and let it work for 15 minutes. Remove with a damp sponge.

INCI:

water, stearic acid, cetearyl isononanoate, glycerin, dimethicone C12-15 alkyl benzoate, butyrospermum parkii butter // butyrospermum parkii (shea) butter, polysorbate 80, cetyl alcohol, titanium dioxide, silica, mica, tocopheryl acetate, pentaerythrityl tetraisostearate, silica dimethyl silylate, hydrolyzed wheat protein, malus domestica fruit cell culture, xanthan gum, lecithin, triethanolamine, acrylates/C10-30 alkyl acrylate crosspolymer, parfum // fragrance, butylene glycol, linalool, butylphenyl methylpropional, citronellol, hydroxyisohexyl 3-cyclohexene carboxaldehyde, alpha-isomethyl ionone, BHT, phenoxyethanol, ethylhexylglycerin.
