

BYCURE

Product name: Royabel Cream

Code: R101303

Packaging: 50 ml jar

Class: Illuminating cream with anti-wrinkle deep action

Function: Illuminating face cream, based on bio-mimetic liftant peptides, hyaluronic acid, retinol, and royal jelly. It gives instant radiance to the face, moisturizing and fleshing out the skin in depth. Thanks to the presence of diamond powders, exerts an efficient "camouflage" effect on the wrinkle, visibly reducing its appearance. Its daily application progressively attenuates the signs of skin aging, giving the face new brightness and fullness.

Active principles and their action:

Palmitoyl Tripeptide-5: firming and plumping action on medium and deep wrinkles; improves the tonicity and the compactness of the skin tissue

Royal jelly: rich in essential amino acids, hydrating molecules and protective factors, promotes the repair of dry and mature skin, improving the skin resistance to stress factors (exogenous and endogenous)

Hyaluronic acid: polymer with lifting action. Thanks to the remarkable molecular weight forms a moisturizing film surface with tensor action.

Retinol: Vitamin A with anti-agerestructuring action. Promotes epithelial regeneration and skin firmness.

Skin types treated: mature skin, asphyxiated and tired skin, dull skin, skin in menopause and post-menopause, dry skin and skin with evident tension, scaly skin

How to use: After proper deteresion, apply morning and evening the right quantity of product on face, neck and decolletè and gently massage until complete absorption.
