

BYCURE

**Product name: Velvet serum**

**Code: RB102301**

**Packaging:** 10 pcs. single doses of 3 ml

**Classe :** Filler primer effect for wrinkles and scars

**Function:** Face serum for the progressive reduction of wrinkles and scars. The wetting properties and film-forming mix of ingredients, day after day fosters the repair of scars and wrinkles and gives the skin an immediate lifting effect ("camouflage"). Ideal for all skin types: from young to mature, from resistant to sensitive and congested, for the treatment of sensitive areas of the face such as eyes and lips contour.

**Active principles and their action:**

Mix of volatile silicones: normalization of the hydro-lipid skin barrier, stratum corneum hydration, increased skin regeneration and optimized repair of the existing scars, reduction of cutaneous redness induced by exogenous environmental stress (mainly stress by exposure to UV light).

**Skin types treated:** eyes contour area, lips contour area, young skin, dry and scaly skin, first wrinkles, mature skin, chronoaging

**How to use:** At morning, after applying the usual day cream, apply all over the face, and on eyes and lips contour 3-4 drops of the product. Massage to evenly distribute the product until fully absorbed. On areas with obvious imperfections (deep wrinkles, scars) apply a drop of the product and tap to favor the integration of the product into the furrow of the skin. Application by chipping increases the "camouflage" effect of imperfection

**INCI:**

Cyclopentasiloxane, cyclohexasiloxane, dimethicone crosspolymer, dimethicone/vinyl dimethicone crosspolymer
